“Aspiring Bioinformatician transitioning from Microbiology and Genetics.”

Education

2025 – present **MSc. in Bioinformatics**
University of Vienna, Vienna, Austria

2020 – 2025 **BSc. in Biology**
University of Vienna, Vienna, Austria
Major: Microbiology and Genetics

Research / Project Experience

7/2026 - present **Summer Research Internship, Theoretical Biochemistry Group (TBI)**

Analysing a dataset for specific features in RNA.

5 – 8/2025 **Bachelor’s Thesis Research, Institute of Biological Chemistry & Centre for Microbiology and Environmental Systems Science, University of Vienna, Austria.**

Research in the laboratory of Univ.-Prof. Dr. Thomas Böttcher. I used protein purification techniques and pull-down assays to investigate protein interactions with a prophage repressor in *Staphylococcus. aureus*.

3 – 7/2022 **Undergraduate Internship, DoME, Centre for Microbiology and Environmental Systems Science, University of Vienna, Austria.**

Under the supervision of Dr. Bettina Glasl at DoME I assisted in the investigation of the interaction between sponges and their microbial symbionts.

8 – 9/2022 **Undergraduate Internship, DoME, Centre for Microbiology and Environmental Systems Science, University of Vienna, Austria.**

Under the supervision of Dr. Barbara Bayer, I assisted in the investigation of light-inhibition in nitrifying microbes, such as ammonia-oxidizing archaea and nitrite-oxidizing bacteria, from the ocean.

1 – 11/2021 **Team Member Volunteer, International Genetically Engineered Machine Competition 2021, Vienna, Austria.**

The project focused on developing an enzyme-based treatment for the digestion of FODMAPs, improving the symptoms of IBS-affected patients. I tracked the project's progress, and assisted in the research and creation of the promotion video.

Volunteering

6/2026 **Member**, AIM Austria (Association for Informatics & Medicine Austria)
Vienna's Non-Profit MedTech Network

Award and Honor

6/2020 **IB Learner Profile Award**, *Amadeus International School Vienna*.

6/2016 **Grand Prize of the writing contest “Denmark in Your Eyes”**, *Vietnam-Denmark Friendship Association and the Danish Embassy in Vietnam*.

A writing contest to celebrate the 45th anniversary of diplomatic ties between Vietnam and Denmark.

Skills

Computation Python, ViennaRNA, VMD, PyMol, BLAST, R, C++, and other bioinformatics tools

Wet lab techniques Protein purification, Pull-Down assay, CRISPR-Cas9, FISH, electron microscopy, DAPI staining, DNA extraction and purification, transformation, cell cultures, PCR, SDS-PAGE, Western blot, ELISA, chromatography, enzyme kinetic assays, protein separation and determination, cloning, ...
